

International Workshop on the Historiography of Philosophy: Representations and Cultural Constructions

Call for Papers

*Timisoara, Romania
22-23 September 2012*

The historiography of philosophy is one of the main concerns of the last decades and our workshop aims to discuss problems regarding the methodological discourse of the history of philosophy.

We propose a comparative and interdisciplinary approach to philosophical historiography and in this sense, we intend to build conceptual links with researches involved in the history of philosophy, classicism, history of ideas and imagology.

We invite all interested researchers and students to join the workshop in the beautiful "little Vienna," the city of Timisoara.

Workshop Topics Include (but not limited to):

- Concepts and practices of the history of philosophy
- Models and methods for the history of philosophy
- Philosophy - old and new: reading historical texts
- Tradition, heritage, influence, sources, schools
- The heirs of philosophy
- Representations of philosophy and philosophers
- Philosophy and *soteria*
- Philosophy and public status
- Philosophy within Local and Regional History
- Central and marginal philosophy

Important Deadlines:

Manuscript Submission	July 15 th
Notification of Acceptance	August 15 th
Full Paper Submission and early payment	September 5 th

Authors are invited to submit their draft papers of about 10-12 pages length, in English, to the conference secretariat email address (conferences@trivent.hu).

Publication

Papers will be published in ISI-quoted publications based on the selection of a scientific advisory committee. Papers that have actually been presented at the workshop will be published. For more information on publication and taxes, see the workshop website or contact the conference secretariat.
