

CESC 2015

2nd International Conference on Communication and Education in Knowledge Society

PROGRAM

5-6 November 2015
Timișoara, Romania

WELCOME MESSAGE

Following the first successful edition, it is our great pleasure to welcome you to the second edition of the International Conference on Communication and Education in Knowledge Society! The 2nd edition of CESC will take place in the lovely Romanian city of Timisoara, whose character and history will enhance interaction among participants, as well as provide an enjoyable setting for the academic event. The conference aims to gather academics, professionals, and students to discuss the challenges and innovations that communication and education is undergoing in the rapidly-changing 21st century. Our purpose is to address specific questions within the five main frames of the conference: communication, education, international relations, political sciences, and applied philosophy. The main frames are broad in order to encourage participants to bring their own specialized researches within these frames and to consequently break down each frame in specific sub-subjects based on the participants' interests.

We take this opportunity to thank all authors for their work and interest in our topics!

We wish all participants an enjoyable stay in Timișoara and a successful workshop!
